

PRO•BIO

PROFESSIONAL-GRADE BIODEGRADABLE GLOVES

BRAND: Gensco

Issue Date: 12/15/2022
Revised: 05/23/2023

Gensco Pro•Bio Nitrile Professional-Grade Biodegradable Gloves are specially designed to decompose in landfills within 2 years. Pro•Bio technology only allows the glove to start the biodegradation process when disposed of in an active landfill environment assuring the high-quality protection and durability required for medical or industrial use.

FEATURES:

- 100% Nitrile, Biodegradable, Powder-Free,
- Available in blue and green
- Beaded cuff ensures easy donning and prevents roll-down
- Textured fingertips enhance wet and dry grip
- Decreased risk of allergies
- Excellent chemical splash protection
- Protection against bacteria and fungi
- Superior strength with better puncture resistance
- Excellent tactile sensitivity
